Christ's Samurai
Jonathan Clements

Key Selling Points:
- An event largely unexamined by popular historians
- The story should find a wider audience as it proceeds the events of Scorsese's forthcoming film *Silence*, starring Liam Neeson and Andrew Garfield, due for release in 2016.

Summary
In 1638, the ruler of Japan ordered a crusade against his own subjects, a holocaust upon the men, women and children of a doomsday cult.

The sect was said to harbor dark designs to overthrow the government. Its teachers used a dead language that was impenetrable to all but the innermost circle of believers. Its priests preached love and kindness, but helped local warlords acquire firearms. They encouraged believers to cast aside their earthly allegiances and swear loyalty to a foreign god-emperor, before seeking paradise in terrible martyrdom.

The cult was in open revolt, led, it was said, by a boy sorcerer. Farmers claiming to have the blessing of an alien god had bested trained samurai in combat and proclaimed that fires in the sky would soon bring about the end of the world. The Shogun called old soldiers out of retirement for one last battle before peace could be declared in Japan. For there to be an end to war, he said, the Christians would have to die.

This is a true story.

Jamie Doward

Summary
A gripping crime thriller from renowned Observer journalist Jamie Doward

Making a killing in the market...

A bomb takes out a CIA station chief in Geneva. A serial killer strikes apparently at random across the UK. In Algeria a terrorist network that controls the illicit trade in guns, drugs, oil and cigarettes is preparing to murder a hundred US and British energy workers unless a ransom is paid. The British and the American intelligence services are competing to find the kidnappers for very different reasons.

One person can see how everything is linked, and that both MI5 and the CIA are being manipulated as part of a grotesque marketing campaign. But Kate Pendragon threatens vested interests who don't want the truth to surface. And some of them are very close to home...

Portland Place
Sarah Shaw

Key Selling Points:
Sarah’s diary is an authentic and nostalgic snapshot into a time that is now lost to us - there is an enduring fascination for this type of writing as shown by the recent successes of Love, Nina (over 33,000 copies sold in paperback through BookScan as of December 2015) and Dear Lupin, a Sunday Times Humour Book of the Year (over 40,000 copies sold in hardback through BookScan as of December 2015).

Summary
Portland Place is the diary of then-BBC Secretary Sarah Shaw for the year of 1971, a humorous and charming perspective of life at the BBC and for a woman at the time.

Portland Place is the diary of Sarah Shaw for the year of 1971, which she recently uncovered whilst clearing out her loft. Working as a secretary for the BBC at the time, Sarah’s diary describes the life of a suburban girl who certainly wasn’t 'swinging' but who was, ironically, not only working on a cutting edge BBC survey on sex education but also in the throes of an unlikely affair with middle-aged, working-class, Irish lift attendant, Frank.

Sarah talks humorously and frankly about what it was like to be a young, working woman at the time as well as life at the BBC during the 1970s and the difficulties of navigating her first romance. She is funny and self-effacing with a self-knowledge that only few attain. Her innocence and naivety are hugely charming and the diary forms a valuable snapshot of a time not so far away t...

The Mermaid’s Scream
Kate Ellis

Key Selling Points:

- Intricately plotted detective stories with an intelligent historical slant
- Kate Ellis has strong connections to the West Country where these novels are set - think Midsummer Murders set in Devon

Summary
The twenty-first Wesley Peterson mystery from captivating crime star Kate Ellis.

Why did Wynn Staniland, a legend in the literary world, suddenly become a recluse in the 1980s? Most assumed he stopped writing because of his wife's bizarre suicide; a death that mirrored a murder case from the nineteenth century. And now a promising young author called Zac Wilkinson is working on Staniland's biography and hopes to reveal the true story to a waiting world - while at the same time keeping his own troubled past hidden from public view.

When Wilkinson is found brutally murdered, DI Wesley Peterson finds links to the unexplained poisoning of a middle-aged couple at a local caravan park - and Wynn Staniland appears to be the connection.

As Wesley delves further into the case he suspects a sinister puppet show might provide the solution: a grim re-enactment of the murder of Mary Field, a cause célèbre from the reign of Queen Victoria that inspired Staniland's best-known novel.

The case becomes pers...

No Milk Today
Andrew Ward

Key Selling Points:

- Virtually everybody over the age of thirty has memories of a milkman. At the job’s peak, in the late-1960s and early-1970s, over 40,000 milkmen delivered to over 18 million homes (about 99 per cent of households), and the milkman’s role was as pervasive and visible in society as that of doctors.
- Many milkmen stayed only weeks and months in the job, but they remember their short careers vividly. Until the 1990s the majority of people had almost daily interaction with their milkmen.
- Think *Call the Midwife*, but with milkmen. In the milkmen’s heyday there were 40,000 to 45,000 milkmen, covering over 95 per cent of houses. There were about 20,000 midwives in 1960, about 35,000 around 1994 and then they started falling away to under 30,000. Quite a lot of midwives are part-time, whereas virtually all milkmen were full-time. The midwife called on only a few houses each year whereas the milkmen visited houses much more often. But householders had much stronger relationships with the midwife at very specific times and those experiences were life changing and unforgettable. But, of course, some milkmen were responsible for the midwife calling several months later.

Summary
A collection of folk tales about milkmen, covering the history of the job and the milkman’s everyday experience - delivering milk, collecting money, engaging with customers, dealing with dogs, coping with emergencies, and looking for opportunities (either with women or money).

Traditionally, in British society, the milkman has been a family friend, a sex symbol and a cheerful chappie. He has been the eyes and ears of the community, and his genetic legacy has supposedly passed into the lineage of housewives.

This collection of folk tales about milkmen covers the history of the job and the milkman’s everyday experience. The book is structured by the milkman’s working day. It starts with the alarm-clock and ends with the milkman returning home in search of sustenance and tender loving care. The book is less about changes in the dairy industry and more about the work experiences of the people who have delivered milk.

Many milkmen are featured: Chris Frankland delivered over eight million pint...

The Upside of Downtime
Sandi Mann

Key Selling Points:
- By the leading expert (and much in demand media commentator) on the psychology of boredom.
- Likely to stir up some controversy with its views on education, parenting, autism and ADHD.
- Looks at both the negative (dangerous thrill-seeking, anti-social behavior, etc.) and positive (taking time out to be mindful, creative, etc.) aspects of boredom.

Summary
A fascinating popular psychology title looking at the increase of boredom in a technology-driven society where attention spans are shrinking, and arguing for embracing downtime, rather than seeking dangerous ways to avoid it.

Are we living in an age where we are more boredom-prone?
Or are other people boring us?
Or could we be that boring person?!

In our current information age, we are constantly connected to technology, and have so many varied ways to spend our leisure time that we should all surely never know what boredom feels like. Yet, boredom appears to be on the rise; it seems that the more we have to stimulate us, the more stimulation we crave.

In a quest to relieve our boredom, we engage in dangerous risk-taking - from extreme sports to drugs to gambling to anti-social behavior, or we overindulge in shopping or eating.

The Upside of Downtime explores the causes and consequences of boredom in the fast-paced twenty-first century. Parents are desperate to keep their children entertaine...

Citizen Khan's Guide To Modern Britain
Adil Ray

Key Selling Points:

- *Citizen Khan* is one of the BBC's highest-rating comedy shows and currently its longest running sitcom. This autumn will see transmission of the 5th series, and audiences of up to 5 million viewers. The series will run from November through to Christmas.
- This book will sit firmly in the area of the market that bought *Mrs Brown's Family Handbook* (162k HBs 2013), *Being Keith* (76k HBs, 2012) and *The World According to Gogglebox* (56k HBs 2014)
- The name 'Citizen Khan' regularly trends within the top 5 on Twitter across the UK on the night of transmission, and his Facebook page has 400k likes with a reach of 227% (indicating that it reaches far beyond the community who like the page). Engagement with FB is over 12% (versus an average of 4% across the network). All of which demonstrates a high level of engagement with the show, so it's not just 'sit back' television.
- The brand has grown to the extent that its creator (and our author, Adil Ray), took the character on a live theater tour for the first time in 2016.

Summary

A major tie-in from a much-loved and hilarious television character.

*Citizen Khan* is one of television's most popular series, following the trials and tribulations of self-appointed Muslim community leader Mr Khan and his long-suffering family and friends in Sparkhill, Birmingham ("the capital of British Pakistan"). Now, for the first time, the larger than life character is taking the opportunity to share with the public his own particular take on 21st century Britain. From parenthood, to politics, to business, British culture and a great deal more, no subject is safe from Mr Khan's somewhat unconventional examination.

The book will be fully illustrated, so will offer plenty of opportunities to share images of Mr Khan's most precious possessions, from his passport and family photos, to his prized yellow Mercedes and his Italian/Chinese designed checked suit (both purchased in 1981). And it'll be the perfect gift for any of the millions of fans of the show who'll be tuning in when it hits...

**Orchids on Your Budget**
*Live Smartly on What You Have*
Marjorie Hillis

**Key Selling Points:**
- Combines yesteryear charm with sensible advice for a modern, cash-strapped audience
- Hillis has a distinctive, humorous approach and a delightfully snooty tone of voice that really sets this guide apart from anything else on the market
- Recent success of books on nostalgia, thrift and etiquette
- International appeal. Rights to LIVE ALONE AND LIKE IT have been sold in America, Germany, Italy, France, Brazil, Poland, Romania and Finland.

**Summary**
*This charming gem from a more genteel age is an elegant and witty guide to living chicly but cheaply*

First published in 1937, ORCHIDS ON YOUR BUDGET gives advice on all manner of subjects, from entertaining and creating the perfect capsule wardrobe to relinquishing the family estate. Lest you worry about how to put the advice into practice, each chapter concludes with a case study providing examples of women who heeded - and those lamentable souls who ignored - Marjorie's wise words.

'It's not difficult to have fun out of economizing (up to a point), both because of the sense of achievement it gives you and because everyone else is doing it, too ... A slight financial pressure sharpens the wits, though it needn't sharpen the disposition. But it takes an interesting person to have an attractive ménage on a shoe-string and to run it with gaiety and charm ... Maybe you would rather play polo than ping-pong, but if you've got an old ping-pong set and no ponies, you'll get a lot more fun out...'

Breakdown
Taylor Downing

Summary
One hundred years on from the Battle of the Somme, Breakdown tells the unusual and little-known story of shell shock in one of the bloodiest battles ever fought by the British army.

Paralysis. Stuttering. The 'shakes'. Inability to stand or walk. Temporary blindness or deafness.

When strange symptoms like these began appearing in men at Casualty Clearing Stations in 1915, a debate began in army and medical circles as to what it was, what had caused it and what could be done to cure it. But the numbers were never large.

Then in July 1916 with the start of the Somme battle the incidence of shell shock rocketed. The high command of the British army began to panic. An increasingly large number of men seemed to have simply lost the will to fight. As entire battalions had to be withdrawn from the front, commanders and military doctors desperately tried to come up with explanations as to what was going wrong. 'Shell shock' - what we would now refer to as battle trauma - was sweeping the Western ...

If anyone knows how to braai, or barbecue, it is Jan Braai, and he knows what people need to know about how to braai: how to make a good fire - with wood - and how to confidently cook a great meal over the coals. He has braaied with thousands of South Africans almost every day since the launch of South Africa's National Braai Day (held each year on 24 September), which he founded to bring all South Africans together through their shared love of cooking over an open fire. The day's patron is Archbishop Emeritus of Cape Town Desmond Tutu, who 'likes a T-bone steak because it is in the shape of Africa'.

This is much more than simply a recipe book - it is an indispensable instruction manual for braaing, or barbecuing the South African way - from perfect steaks, to lip-smacking braaied chicken and lamb chops, or rack of lamb . . . or even a lamb on a spit!

**Death Comes to Lynchester Close**
David Dickinson

**Summary**
Lord Francis Powerscourt is visited at home in London by the Bishop of Lynchester who wants his advice about the suspect for the death of an aged parishioner. Powerscourt advises that discretion rather than accusation is the best way forward, but this is just the start of his association with the diocese of Lynchester.
The death of the parishioner has left available a property in the cathedral close which traditionally the church rents out to a suitable tenant. Four worthy candidates are nominated . . . and then one of them, the retail king of the south of England, is found dead in the house, poisoned by strychnine. So once again Powerscourt is summoned by the bishop as this time there is no doubt of foul play.
But there are many suspects from which to choose - there are the other candidates who want to live in that very desirable property . . . or could it be more complex than that? Very soon Powerscourt uncovers a trail of greed, deception and death which goes straight to the heart of ...

A night of dancing that ends with the mysterious disappearance of a stable-boy - and Lord Francis Powerscourt is summoned to investigate.

Spring 1914, and Jack Harper, current owner of Melrose Hall, has thrown a party for his eldest, Andrew, who is turning twenty-one. But the following morning there is no sign of Richard O'Connor. The police aren't interested in the disappearance of a servant so Powerscourt is summoned. And then a body is discovered in the tackroom of one of the farms on the estate. Richard O'Connor has been shot through the head - but why would anyone want to shoot him? And what of Richard's unique ability - he can tell which horse is going to win the race. Did that lead to his death? Or was it the arrival of gangs at the local races, keen to enlist Richard into the...

Cathryn Kemp was a successful travel journalist who was struck down by a life-threatening illness. After four years of operations and mis-diagnoses she left hospital with a repeat prescription for a painkiller 100 times stronger than heroin. Within 2 years she was taking more than 10 times the NHS maximum, all on prescription. Her family struggled to understand; her boyfriend left her, she hit rock bottom. Discovering she had only 6 months to live if she didn't give up the pills she sold everything she owned and checked into rehab. In the treatment centre she was told that she was unlikely to recover from 'the highest level of opiate-abuse in the clinic's history'. To everyone's amazement, she proved them wrong.

This is an extraordinarily poignant, vivid and honest memoir. Based on the 24 diaries that the author kept during this period, we travel with Cathryn through her hospital agony, descend with her into the hell of addiction and cheer her as she pulls herself out and upwards. It is...

100 Plants That Won’t Die in Your Garden
Geoff Tibballs

Summary
Stocking a garden with plants can be an expensive business, so there are few things more frustrating than when the prized specimen for which you have paid a king's ransom either online or at a garden centre shrivels up and dies within a year or so of purchase. If you can prove that the plant was half-dead when it arrived, you may able to obtain a refund from some online retailers, but for the most part you have to put it down to experience and make a firm mental note not to buy fussy plants in future.

The problem is that many websites and catalogues claim that everything they stock is easy to grow. Herbaceous perennials are a particular minefield. Too often you are told that a certain plant 'will come back year after year' without fail when in reality it is either so tender that the only chance of it surviving an average British winter is in a greenhouse or it is a short-lived perennial that is unlikely to flourish beyond two years anyway - and even then only if the local slugs and snai...

Summary
The delicious new summer novel by the author of Little Flower Shop by the Sea

The sun is shining in the quiet little seaside town of Sandybridge

Sandybridge is the perfect English seaside town: home to gift shops, tea rooms and a fabulous fish and chip shop. And it’s home to Grace - although right now, she’s not too happy about it.

Grace grew up in Sandybridge, helping her parents sort junk from vintage treasures, but she always longed to escape to a bigger world. And she made it, traveling the world for her job, falling in love and starting a family. So why is she back in the tiny seaside town she’d long left behind, hanging out with Charlie, the boy who became her best friend when they were teenagers?

It turns out that traveling the world may not have been exactly what Grace needed to do. Perhaps everything she wanted has always been at home - after all, they do say that’s where the heart is...

Roy Moxham

Key Selling Points:
- It has life sales of 20,000 copies.
- Wonderfully praised on publication.

Summary
The bestselling account of the author's quest for a lost wonder of the world, The Great Hedge of India.

This is the quest for a lost wonder of the world, in the author's words his 'ridiculous obsession', arose from the chance discovery of some dusty memoirs that told of a mighty hedge spanning the Indian subcontinent in the nineteenth century.

The hedge was set in place to allow the collection of the Salt Tax by British customs officers, Inspired by the concept of this amazing living barrier, now forgotten, Roy Moxham set off to find out what has happened to it and whether any remnant existed today. His travels in India, and what he found there, form the basis for this illuminating book.

Writer Jan Morris comments, 'At first I thought this remarkable book must be a hoax . . . It tells the story of one of the least-known wonders of Queen Victoria's India - a customs barrier 2,300 miles long, most of it made of hedge. It was patrolled by 12,000 men and would have stretched from London to Co...

The Worst Journey
John Lewis-Stempel

Key Selling Points:

- A very readable book about the men of the convoys, about life aboard ship, drawing extensively on letters, diaries and reports, as well as new interviews with the last surviving veterans.
- The book shadows the experience of the sailors, from enlistment, through training, joining a ship, shore leave, action and death - or survival - at sea.
- It follows the fortunes of twenty-five sailors drawn from the bottom, middle and top of the navy’s ranks, from Able Seaman to Petty Officer to Captain; and from the top, middle and bottom of the ship, from the Oerlikon gunners to the engine room. This approach is similar to that taken by the author for his very well reviewed book about subalterns in the First World War, Six Weeks.

Summary
During the terrible voyage, which continued to be made right through the winter, from the extreme north-west of Scotland to Russia's Arctic coast, the sailors faced 50- and even 100-foot waves, icebergs and hurricane-force winds. Such winds could peel the steel shields from the ships' guns and regularly blew men overboard. Spume would turn to ice the instant it landed on the ships.

Accurate navigation was impossible because of the gyrations of the ships' compasses so far north and ships would plunge down the face of near-vertical waves or heel over almost onto their sides. In summer, long days offered no protection against aerial attack; and in the dark, U-boats would attack. A ship might fight off sixty attacks in the course of a single day. In summer, Oerlikon gunners would be at their guns for twenty hours a day; in the winter they often froze to death.

There were 'routine' injuries caused by the rolling and pitching of a ship throwing men down stairs and tearing machinery, ammuniti...

The Ludicrous Laws of Old London
Nigel Cawthorne

Summary
London abounds with all manner of ludicrous laws, and not all of these curious statutes have been relegated to the past. Despite the efforts of the Law Commission there are medieval laws that are still in force, and the City of London and its livery companies have their own legal oddities. Laws are made in the capital because parliament is here; so are the Old Bailey, the Law Courts, the House of Lords and, now, the Supreme Court. The privy council, which sometimes has to decide cases, also sits in London, and there were other courts that used to sit in London, from prize courts concerning war booty to ecclesiastical courts.

Having maintained its 'ancient rights and freedoms' under Magna Carta, the City felt free to enact its own laws, many of which seem to have had to do with what people could wear. Until quite recently, for example, a man could be arrested for walking down the street wearing a wig, a robe and silk stockings - unless he was a judge.

And all human folly has been paraded ...

The complete panoramas of Passchendaele from the author of The Battlefields of the First World War.

Today, concertina'd into a single sombre entity known as Passchendaele, the British 1917 offensives in Belgian Flanders have entered the English language as the epitome of all that was both wretched and noble about the Great War. Collectively known as the Third Battle of Ypres, the fighting raged from early June until mid-November, and revealed new depths of tragedy, heights of gallantry, astonish...

The Somme
Peter Barton

Summary
Peter Barton's landmark volume presents over 50 original panoramas of the battlegrounds of the Somme. They show what no other photographs can: the view from the trench parapet, and a great deal more.

This revised edition also includes stunning new details of the use and misuse of an extraordinary network of 'Russian Saps' installed during the two months prior to battle. These tunnels beneath no man's land often brought the British - unseen - to within 10 metres of the German trenches, yet over-secrecy and poor communication led to most being left unexploited. In the sectors where they were employed, success was dramatic.

Plus a host of previously unpublished personal testimony, and a fresh look at several unseen and forgotten aspects of the battle such as the Royal Engineers' Push Pipes, Bored Mines and huge Livens Flame Projectors. Here is the Somme as you have never seen it before.

Praise for The Battlefields of the First World War:

So says eleven year old Shruti of her broken home in suburban middle England. The Dark Night of the Shed: Men, the midlife crisis, spirituality - and sheds
Nick Page

Summary
In his usual characterful style, Nick Page explores the phenomenon of the male midlife crisis, reviewing the options for how to deal with it and concluding, unconventionally, that by meeting it head on it can be a freeing and positive experience, rather than a negative one.

Men, the midlife crisis, spirituality - and sheds
A new bike - running the marathon - splashing out on a sports car - having an affair - taking up triathlon - upping sticks and moving to the country - getting divorced - even going into the church...

There's a point in a man's life where he looks around him and asks whether this is really where he wants to be - what he wanted to do with his life. And even if he's achieved all his childhood dreams, maybe that's not enough any more.

Nick Page has been there, and he decided to build a shed. Not to answer the question, but so that he'd at least be able to get some peace to think about it properly. Join him on a journey of discovery, into what the midlife crisis really is, and whether there's a better way to go at it than frittering away time and money trying to pretend you...

Contributor Bio
Prized for his skills as a writer, speaker, unlicensed historian, applied rarer and general information-monger, Nick Page has written over 70 books, including The Tabloid Bible, the 'Longest Week' trilogy and, most recently, A NEARLY INFALLIBLE HISTORY OF CHRISTIANITY, looking at the history of the Christian church down the centuries.

Nick lives in Oxfordshire with his wife Claire and their three daughters.

Deadly Secrets
The Posthumus Trilogy Book 3
Britta Bolt

Summary
Pieter Posthumus wouldn't live anywhere but Amsterdam...even though the big Earth 2050 conference, with its crowds of delegates and protestors, has left him feeling somewhat under siege. At least his work at the Lonely Funerals team is quiet.

Then one of the delegates is left for dead under a bypass. Ever curious, Posthumus agrees to look into the case, which sparks memories of his own time as a student radical. Amsterdam has always attracted people with fierce views... but is someone willing to kill for their principles? Or did the attack have a much more personal motive?

Forced to contend with family secrets, political machinations and international conspiracies, Posthumus finds himself in ever deeper, darker waters as he tries to uncover what really happened, and why.

The Walking Bread
Rick Grains

Summary
Hilarious spoof cookbook to tie into the hit series.

From the creators of BAKING BAD and GAME OF SCONES comes the ghoulishly funny spoof cookbook THE WALKING BREAD, inspired by the hit television series that viewers have been hungrily devouring for the past five years.

Fans of the show will be dying to get their hands, and jaws, on this new pun-tastic, post-apocalyptic installment that features edible recipes inspired by key moments on the show, such as Carol's Tough Nut Cookies and Rick's Ribs. Don your apron (and your eye patch) and prepare for the very best of dystopian cooking.

Contributor Bio
Originally a police offer and amateur patisserie, Rick Grains was shot in the line of duty and fell into a coma, only to awake in the midst of a baking apocalypse. Over-run by delicious, but vicious, walking pastries, Rick had to fend off hordes of undead treats. In the land of the Walking Bread, danger is only ever one bite away.

‘This isn’t a mid-life crisis OK? For a start I’m not old enough yet to have one of those. I’m calling it a happiness project. I’ve stolen an entire summer from my life and by the time it’s over I plan to leave this place with a list in my hand. The ten things that make me happy, that’s all I want to know. How difficult can it be? They may be small things - a perfect cup of coffee, a day without rain - or bigger ones. It’s still the beginning so how can I know?’

Addolorata Martinelli knows she should be happy. She has everything she thought she wanted - her own business, a husband, a child. So why does she feel as if something is missing? Then when her restaurant, Little Italy, is slated by a reviewer, she realizes that she’s lost the one thing she thought she could always count on, her love of food.

So Addolorata heads to Venice for a summer alone, aiming to find the ten things that make her happy. Once she’s found them, she’ll construct a new...

When Nicky met and married a New Zealander she moved to Auckland where she works as a journalist and edits a woman’s magazine. She hoards her annual leave so that she and her husband can return to Italy to meet up with her family and to eat the best mozzarella and research her books.

**Summary**
A fast-moving, filmic and violent SF thriller, perfect for fans of Jack Campbell. A meeting of The Road and Rogue Trooper.

'My nanotech is dead. By definition I am no longer Ficial. On the other hand I don't experience your emotions. That makes me inhuman. Like I said: neither one nor the other.'

Caught in a world that is too busy destroying itself to care for anything except how to exploit the weak, Kenstibec is the ultimate outsider: he used to be invulnerable but now he's just a killer with no-one to kill for.

But when the old world is ending everyone needs a reason to live, someone to live for. Kenstibec is on a quest. A quest that will take him across a freezing ocean and into the cold heart of a new world order.

Victor Pelevin

**Summary**

*S.N.U.F.F.* is a hard-hitting and timely satirical story about war, revolution and their relationship with the media.

Damilola Karpov is a pilot. Living in Byzantium, a huge sky city floating above the land of Urkaine, he makes his living as a drone pilot - capable of being a cameraman who records the events unfolding in Urkaine or, with the weapons aboard his drone, of making a newsworthy event happen for his employers: 'Big Byz Media'.

His recordings are known as S.N.U.F.F.: Special Newsreel/Universal Feature Film.

*S.N.U.F.F.* is a superb post-apocalyptic novel, exploring the conflict between the nation of Urkaine, its causes and its relationship with the city 'Big Byz' above. **Tank Action**

David Render

**Summary**

A gripping account of the Second World War, from the perspective of a young tank commander.

In 1944 the average life expectancy of a newly commissioned tank troop officer in Normandy was estimated as being less than two weeks. David Render was a nineteen-year-old second lieutenant fresh from Sandhurst when he was sent to France to join a veteran armored unit that had already spent years fighting with the Desert Rats in North Africa. Joining the Sherwood Rangers Yeomanry five days after the D-Day landings, the combat-hardened men he was sent to command did not expect him to last long. However, in the following weeks of ferocious fighting in Normandy, in which more than 90 per cent of his fellow tank commanders became casualties, his ability to emerge unscathed from countless combat engagements defied expectations and earned him his squadron's nickname of the 'Inevitable Mr Render'.

In *Tank Action* David Render tells his remarkable story, spanning every major episode of the last year of the Second W...

Stuart Tootal spent twenty years as a soldier, serving in Northern Ireland during the Troubles, the Gulf War and the invasion of Iraq in 2003. In 2006 he commanded 3 PARA as the first UK combat unit to be sent to Helmand province in Afghanistan. Dangerous Days in Ancient Egypt
Terry Deary

Summary
Think that Ancient Egypt is just a load of old obelisks? Don't bet your afterlife on it.

Ancient Egypt should be deader than most of our yesterdays. After all it was at its height 5,000 years ago. Yet we still marvel at its mummies and ponder over its pyramids. It's easy to forget these people once lived and laughed, loved and breathed ... though not for very long.

These were dangerous days for princes and peasants alike. In Ancient Egypt - a world of wars and woes, poverty and plagues - life was short. Forty was a good age to reach. A pharaoh who was eaten by a hippo ended up as dead as a ditch-digger stung by a scorpion. Unwrap the bandages and you'll find that the Egyptians' bizarre adventures in life were every bit as fascinating as the monuments they left to their deaths.

**The Celts**
Alice Roberts

**Summary**
Alice Roberts goes in search of the Celts and their treasures in a narrative history to accompanying a new BBC series.

We know a lot about the Roman Empire. The Romans left monuments to their glories and written histories charting the exploits of their heroes. But there was another ancient people in Europe - feared warriors with chariots, iron swords, exquisite jewellery, swirling tattoos and strange rituals and beliefs. For hundreds of years Europe was theirs, not Rome’s. They were our ancestors, and yet the scale of their achievements has largely been forgotten. They were the Celts.

Unlike the Romans they did not write their history, so the stories of many heroic Celtic men and women have been lost. And yet we can discover their deeds... you just have to know where to look.

From Denmark to Italy; Portugal to Turkey Alice Roberts takes us on a journey across Europe, revealing the remarkable story of the Celts: their real origins, how they lived and thrived, and their enduring modern legacy.
